

Hollywood Pet Hospital

To Hollywood Pet Hospital,

We will be out of town from _____ to _____, during which time our pets will be cared for by _____. In the event of the need for medical services during our absence, caretakers have been instructed to use your hospital. You are authorized to provide whatever care is required to heal or maintain our pet's health.

You are authorized to make the decision to end the life of any of our pets if, in your professional opinion, such is needed to terminate pain or suffering, in the event that the pet sustains severe injury from which recovery will substantially reduce the quality of his/her life and/or is in a terminal situation due to injury or illness if, also in your opinion, such a decision should not wait for our return.

In the unlikely event that any of our pets die, or his/her life is terminated during our absence, we request that his/her body should be kept until our return and a decision will be made at that time as to cremation arrangements.

We are aware of the possibility of incurring substantial fees for services to maintain our pets' health. We will be responsible for the payment of all services. We have provided our credit card number on file or have set up other arrangements with HPH staff members.

We have complete confidence in your abilities as doctors who have provided our pets with stellar care in the past to be able to make decisions that are in the best interest of our pets.
